Behavioral Health Strategies in Schools Seminar Series

Safety Assessment Teams with Nancy Rappaport, MD
November 22, 2019
The seminar will provide schools with a roadmap to creating a Safety Assessment Team and understand how these teams should work as part of a robust approach to school safety. Dr. Rappaport will detail her comprehensive school safety assessment approach for students whose behavior raises concern about their potential for violence.

Register Online

Adverse Childhood Experiences (ACES) with Nicole Christian-Brathwaite, MD
January 31, 2020
The seminar will explore how Adverse Childhood Experiences (ACES) or traumatic events impact a child's behavior, development and ability to learn and function in the classroom setting. Participants will learn behaviors that may be expected from children who have experienced traumatic events, how to support those students and create a more trauma informed classroom. Participants will also learn ways to mitigate their risk of developing secondary trauma or compassion fatigue.
